Education Specialties

We offer a broad and comprehensive menu of services in both regular and special education areas. Our hands-on approach to training and consultation is a result of the many years of direct service experience in both K-12 and higher education settings.

- ADOS / ADI-R TRAINING
- AUTISM ASSESSMENT
- SOCIAL SKILL TRAINING
- POSITIVE BEHAVIOR INTERVENTION & SUPPORT (PBIS)
- SMALLER LEARNING COMMUNITIES
- TRANSITION PLANNING FOR STUDENTS WITH ASD
- SENIOR PROJECT

Comprehensive Education Consulting Services

Our consulting services cover a broad range of specific need in both regular and special education. Customized trainings and consultations are brought directly to your school site.

ADOS / ADI-R TRAINING

On-Site 2 day trainings provide hands-on experience with assessment instruments. Follow-up trainings are also available for the more in-depth skill development.

AUTISM ASSESSMENT

Independent educational evaluations (IEE) for parents or school districts. We provide a complete assessment including a FBA, observations across settings, written report, and intervention recommendations.

SOCIAL SKILLS TRAINING

We teach how to incorporate social skills instruction into a variety of settings utilizing research-based programs.

POSITIVE BEHAVIOR INTERVENTION & SUPPORT

PBIS is a behaviorally-based collaborative problem solving approach used to improve learning outcomes for students with challenging behaviors.

Under IDEA, schools are required to address behavioral issues using a positive support process. We provide team training and on-going individualized support for specific students.

SMALLER LEARNING COMMUNITIES

Following the latest initiatives and trends in high school reform, Smaller Learning Communities (SLC) segment existing curriculum into areas of content that follow career specific threads. Core curriculum instructors teach subject matter from the perspective of the particular career thread. Research has shown this method increases student motivation, retention, and comprehension in a rigorous and relevant setting.

TRANSITION PLANNING FOR STUDENTS WITH ASD

Assistance with creation,

modification, and implementation of the Individual Transition Plan (ITP) which will ease transition from high school to a college or workplace setting.

SENIOR PROJECT

Considered to be one of the best examples of project based learning, a Senior Project allows the graduating senior the opportunity to not only demonstrate what they know, but more importantly, what they can do. Many states have now mandated a senior or "exit" project be a graduation requirement.
