

High School Services

ADDRESSING THE NEEDS OF SECONDARY STUDENTS, EDUCATORS, COUNSELORS, AND ADMINISTRATORS

Our trained consultants have over 30 years of experience in K-12 & post secondary settings. From college admissions to obtaining disability resources on campus, Education Specialties is your one-stop shop for transitioning both regular and special education students into life beyond high school.

“The consultant from Education Specialties was a lifesaver for several of our special education students by showing us the multitude of options we never knew existed for them.”

Jill Atlas, Principal Mountain View High School

Dr. Barbara Webb along with her husband Kevin provide a two-tier approach to all facets of K-16 education. Barbara specializes in the diagnosis and structured intervention strategies for students with ASD. Kevin has worked in both secondary and post secondary settings in counseling and career guidance, mostly for learning disabled students. He also is skilled in staff development and training for Senior Projects and Smaller Learning Communities. Their team approach provides your school with a strong assessment and intervention foundation that leads to a successful transition from high school to college or other post secondary opportunity for all regular and special ed students.
